Eco Bottle Trap

Chrome Plated Solid Brass
Wall Basin Trap

The **Eco Bottle Trap** complements any wall basin with a designer look and feel. Constructed of brass with a high quality chrome finish, the **Eco Bottle Trap** is watermark approved and designed to last. The trap is suitable for general purpose domestic and commercial applications.

Trap: **Eco Bottle Trap** Code No.687295.

Waste Outlet: The 40mm trap has been designed for use with the Caroma range of basin waste.

Wall Basins: Compatible with most modern Caroma wall basin designs.

Fixing: Attached directly onto the basin's 40mm screw waste and sealed to the waste pipe by the use of keeseals for PVC or copper DWV pipe.

Colours: Chrome, Black or White.

Dimensions: All dimensions are in millimetres and are subject to normal manufacturing variations. Caroma pursues a policy of continuing improvement in design and performance of its products. The right is therefore reserved to vary specifications without notice.
