Versatile wine cabinet that can be set as a Single-Zone for cellaring both reds and whites or as Multi-Temp for serving different styles/varietals at perfect drinking temperatures.

Product Details

FEATURES

Store up to 198 Bordeaux Style Bottles
Maximum loading capacity is 198 bottles of Bordeaux shape and size (750ml).

Extra Wide Shelf Cradles
Perfect for storing a wide variety of bottle shapes and sizes comfortably, while providing the stability needed to keep your bottles safe.

Reversible Shelves
Personalize the layout of your wine cabinet by adjusting the height of the shelves. You can both place bottles laying down or standing up by flipping the shelf.

Inverter Compressor
Energy-efficient Variable Speed Compressor: saves energy and emits lower noise and vibrations, while provides great temperature stability and has longer life compared to a single speed compressor.

Wine Display Shelf
Showcase your most cherished wines at the top of your cabinet with the Vintec Display Shelf.

Soft Close
Soft close prevents disturbing wines when closing the door of the wine cabinet. Feature also limits risk of leaving the door open as it will close automatically if any small gap is left behind.

Double-Glaze Door with Anti-UV Glass
The double-glazed door with anti-UV glass ensures protection from UV rays and prevents your wine spoiling due to light damage. It creates the optimal environment for your wine's maturation.

Top-to-Bottom LED Lighting
Perfect visibility of your collection with our energy efficient, top-to-bottom UV-free LED lighting. Located in the door, the light is not blocked by wine bottles, resulting in a smoother appearance with a more uniformed diffusion. Lighting is dimmable to suit home or restaurant environment, with dynamic effects when opening and closing the door and to signal prolonged door openings before audio alert is triggered.

LED Digital Display Panel
Intuitive and minimal touch control panel. Elegant and easy-to-use, by design.

Humidity Recycling System
High humidity level is maintained in the cabinet during cellaring, preventing corks from drying out.

Audio and Visual Alert
When door is left open for more than 5 minutes, a visual notification kicks in, followed by an audio alarm (after additional 2 minutes). The alarm also notifies too high or too low temperatures that put wines at risk.

Security Lock
Child-proof lock your cabinet to avoid unauthorized access to your collection.

Reversible Door (by technician only)
Contact a technician to reverse hinges to change opening side the door of your cabinet (charges apply).

Winter Function for Cold Climates
Maintains the temperature stable even when in cold climates.

Cut-Off Thermostat
Extra safety mechanism that prevents temperature to drop below accepted levels. In the unlikely event of malfunction of the cooling system, this safety mechanism shuts off the compressor and avoids excessively low temperatures.

Dedicated Cellaring Mode
Dedicated mode which sets the temperature of your wine cabinet at 12C the ideal temperature for cellaring all wines (reds, whites and sparkling).

Aluminium Reinforced Shelves
Aluminium trim on the Vintec shelves which improves load-bearing and contributes to the wine cabinets' elegant design.

Door Stop
Provides a natural stop when opening the wine cabinet's door and limits the risk of damaging the glass.

Adjustable/Repositionable Shelves
Reverse the top shelf to store wines in the upright position. This top shelf is located just under the display shelf and it has a flat side to accommodate standing bottles.

BENEFITS

Vintec Perfect Cradle™ Shelving (non-extendable, adjustable position)
Store your entire collection with our adjustable, wide slat, premium white oak shelving. The Vintec Perfect Cradle Shelving is designed with optimized spacing to accommodate bottles comfortably neck-to-neck, allowing stacking of multiple layers of wines in each shelf. Thanks to its reversible flexible shelving, the wine cabinet can also work in Hospitality Mode, enabling bottles to be stored in the upright position providing the stability needed to keep your wines safe.

True Multi-Temp Climate Mode (or Single-Zone)
Flexibility to store all your varietals at ideal serving temperatures in Multi-Temp mode OR to cellar your wines at a single temperature in Single Zone mode. In Multi-Temp mode, the cabinet generates a gradient of temperatures from top-to-bottom, allowing you to store different wine styles and varietals at their perfect serving temperatures typically graduating from 6C at the bottom to 18C at the top. True Multi-TempTM offers a wider range of temperatures with greater control, unlike most wine cabinet brands: at the top between 12 to 18 C and at the bottom between 5C to 12C. Offering great versatility, this wine cabinet can also be converted to Single-Zone mode, creating a single consistent temperature from top-to-bottom, with a range from 8 to 18C.

Made in Europe, Premium Scandinavian Design
Vintec Premium range products are made in Europe and designed in Denmark and Sweden. The signature design incorporates no protruding handles, fingerprint-proof acid-etched and edge-to-edge glass doors, minimal touch control panels, premium white oak shelves, signature red bumpers on shelves, and diffused LED lighting throughout.

Energy-Efficient and Quiet Inverter Compressor
The Variable Speed Inverter Compressor is quiet and energy efficient, slowly & gently cooling with greater temperature control. Built with rubber shock absorbers, it minimises vibration transmission, so that your wines are stored in a calm, protected environment where they can mature steadily.

Access to OENO Virtual Cellar Management App
OENO By Vintec is your virtual cellar management tool and personal sommelier, powered by Vivino. It allows wine lovers to keep track of their collection effortlessly, access expert recommendations created by a team of sommeliers, and restock wines. Our partnership with Vivino enables OENO users to use AI label recognition with access to a database of more than 13 million wines, and receive exclusive wine offers to build up your collection and restock your Vintec.

New Reversible Storage/Hospitality Shelves
Personalize the layout of your wine cabinet by adjusting the height of the shelves. You can place bottles laying down OR standing up by flipping the shelf, with one side offering a flat surface for greater stability for upright bottles.

Acid-Etched Fingerprint-Proof Glass Door
The acid-etched glass door is fingerprint resistant. Its matte, smooth surface is part of the elegant premium design of the range.

Diffused and Dimmable Top-To-Bottom Crystal White LED Lighting
Our energy-efficient, top-to-bottom UV-free LED lighting provides perfect visibility for all your wines. Located in the door, the light is not blocked by wine bottles, resulting in a smoother appearance with a more uniformed diffusion. Lighting can be personalized and dimmed to suit home or restaurant environment, with dynamic effects when opening and closing the door and to signal prolonged door openings before audio alert is triggered.

Sleek Touch-Sensitive Control Panel
Configure your wine cabinet with ease with the intuitive and minimal touch control panel.

Showcase Your Best Wines
Showcase your best or favourite wines at the top of your cellar with the Vintec Display Shelf. It highlights your bottles by cradling them at an angle providing a clear view of your most cherished wines.

Premium White Oak Shelves
Vintec Premium range shelves are made from White Oak, per the high-quality oak barrels used in winemaking, and are designed to cradle bottles of any shape comfortably, and to provide the sturdiness needed to keep your wines safe during storage.

Peace of Mind with The Vintec 5 Pillars Of Wine Storage
All Vintec Wine Cabinets recreate the ideal wine storage conditions found only in the best natural underground wine cellars by strictly adhering to the "Vintec 5 Pillars of Wine Storage": Stable Temperature, High Humidity, UV-Free / Dark Storage Area, No Vibration, Quality Airflow. *Note: high humidity levels are maintained in the cabinet when set at cellaring temperature (12-14 degrees celsius).
